**Not a Race. An Experience!**

Dear Friends:

I have been asking you to support Celebrate Life Half Marathon for 16 years now and I can't thank you enough for your commitment to our cause. The truth is there are so many other worthy charities all deserving of a donation. What separates Celebrate Life Half Marathon from others is that we are 100% volunteer driven and that the money we raise stays right here in our community with the people we know and sometimes, someone next door. And that's what we've learned from cancer. It hits close to home.

We have also learned that it disrupts a life. The fear and the uncertainty take a toll on the person and the family. It also causes an incredible financial burden on people who were already struggling to live paycheck to paycheck.

Those are the people we help. The mother who must choose between buying groceries and going for her treatment. The self-employed man who falls behind his mortgage after missing work. The couple who, already financially strapped, can't meet their payments.

We need your help to help them.

Every donation made to Celebrate Life Half Marathon is donated to a cancer patient in need. Nothing stays with us. No salaries, no administrative expenses. What we receive, we give back.

We hope you can help us again. Last year we raised \$70,000. Here are some suggestions, but we appreciate any donation of any amount you can make:

- \$125 - Website name listing.
- \$250 - Website name listing and awards poster
- \$500 - Website logo. Course Sign.
- \$800 - Website logo. Banner Feather Flag mile marker.

Will you join us? Thank you in advance for your generosity.

Sincerely, *Myriam Loor*
