

CELEBRATE LIFE HALF MARATHON

March 13, 2022

CLHM is grateful to stage a live race once again. As we still deal with the ramifications of COVID, we will maintain certain protocols to ensure the safety of all.

CLHM 2022 is our 19th edition. Throughout the years we have raised very needed funds that have been distributed to people in treatment. The need will always be greater than anything we can raise, and we will continue to raise money to alleviate that need.

While this year we are aiming for a more normal race, we will still do much of everything outdoors to eliminate the risk of indoor crowds.

There will be no corrals. No need to bring your own water unless you want to. You might think all is back to normal...think again 😊

Packet pick-up will be done mostly prior to the race. Please plan accordingly. See below for time and places.
